

Has your baby been
to the dentist yet?

Make the appointment today.

Children should visit the dentist by age 1. In fact, before the first baby teeth even come in, you can take measures to help protect your little one from the effects of dental disease.

Visit DentistBy1.com to learn more or support the cause.

 **DELTA DENTAL®**

Delta Dental of Illinois Foundation

dentist by 1™

Cavities are nearly 100% preventable.
